EDUCATION

University of Houston, Houston, TX

Bachelor of Science in Computer Science

May 2020

PROJECTS

Covid-19 Tracker

- Developed an interactive program using an API to display daily updated data of global positive cases, recovery, and deaths of the Covid-19 pandemic.
- Utilized graphs to output the data as well as an added functionality to filter by country.

Netflix Clone

- Produced a copy of the Netflix website and implemented sign up/sign in functionality.
- Incorporated authentication with the use of different technologies and incorporated a database as well as a dynamic search feature.

Endoscopic Surgery Realtime Video Playback

- Designed and developed a video playback learning application for realtime endoscopic surgery with a team of 5.
- Implemented features of a list as well as drawability on the video when it is paused. These features allow medical students to list and learn the steps preformed in the procedure, which are to be reviewed by an instructor.

Company Admin Portal

- Designed and launched a website with a team of 3 that showcased an admin portal for a company that allowed a super admin to create, assign, modify, and remove roles that allowed specific access on the site.
- Integrated the use of different technologies and presented the website which earned my team an A for the class.

2D Side Scroll Platformer Game

- Conceptualized and deployed a game with a team of 6 by utilizing GameMaker Studio 2.
- Coded scripts, designed and implemented levels, and collaborated as a team in order to hit 100% of our goals.
- Our end product was judged by a panel of 15, which consisted of professors as well as people in the game industry, where they reviewed the game mechanics, the playability, and how challenging it was and was awarded an A.

EXPERIENCE

Seaside Poke, Houston, TX

Manager

July 2017 – July 2019

- Spearheaded company's customer satisfaction goals, by anticipating and addressing guests' service needs.
- Exceptional interpersonal and team building skills with an aptitude for building rapport with a diverse range of customers, managers, and colleagues; talent for quickly resolving issues prior to escalation.
- Collaborated with other managers to design an effective process to speed up customer orders to produce up to \$2,800 plus in sales a day.

Bahama Bucks, Sugarland, TX

Manager

July 2014 - May 2016

- Handled customer service and end-of-business financial reconciliation (cash / credit receipts) as well as providing leadership and training to junior employees for a local dessert franchise.
- Managed up to 10 employees at a time and increased productivity by setting proactive tasks, daily goals, and assisting in any business operations needed.

ACTIVITIES AND LEADERSHIP

Gamma Beta Organization

August 2017 – May 2020

- Showcased computer programming methods to educate 8 students; taught functions, for and if loops, clean code principles, and introduced them to encapsulation.
- Partnered with Abandoned Little Angels (ALA) to annually provide over 20 volunteers and logistics in hosting their annual Gala which raised over \$250,000 to build and support communities for orphans in Vietnam.

CERTIFICATES

- Scrimba, The Frontend Developer Career Path.

December 2020
